

# E-DRIVE

Quiet, Clean, and Reliable

**NO MORE WORRYING ABOUT MAINTENANCE OR REFUELING...**

## IT'S ELECTRIC

E-DRIVE incorporates **4 main elements** designed to work as a **TURN KEY** energy system!

Insulated Structure

Lithium Battery

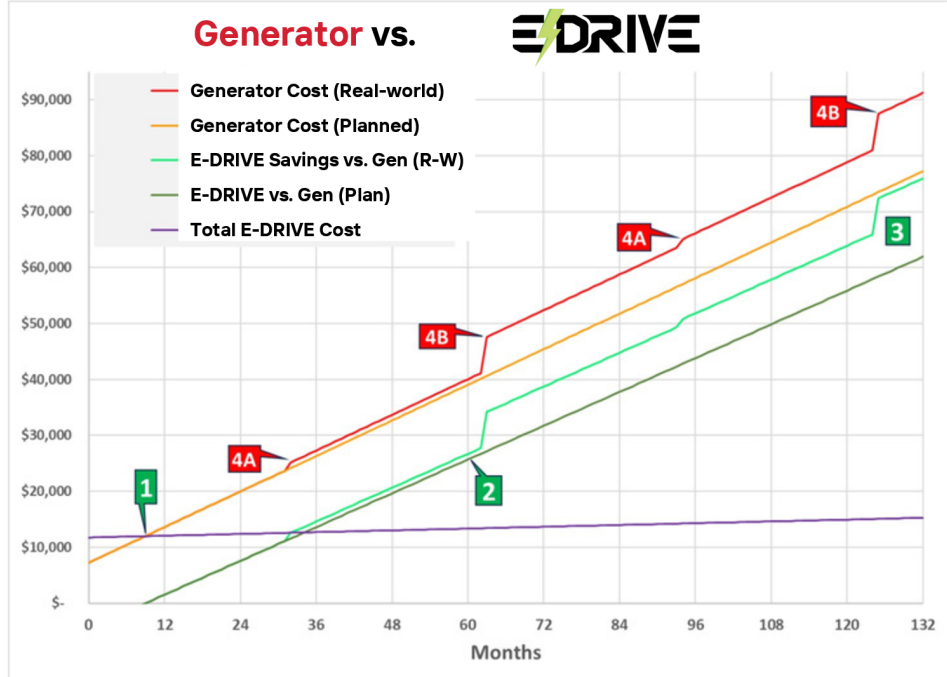

Solar Power Generation

120VAC Inverter

Reduce your energy costs and boost productivity with **CORE PRO**, featuring an insulated body that significantly reduces heating and cooling needs. This energy efficiency, combined with highly efficient and low power draw components, makes **E-DRIVE** the perfect solution for a productive workday! Solar panels recharge the lithium battery pack, providing the DC and AC power (through an inverter) needed to run your lights, tools, and outlets.

- 1 **10 MONTHS:** Break-even between generator & E-DRIVE
- 2 **\$28,000 SAVINGS** *before* first generator replacement!
- 3 **\$75,000 SAVINGS > Trailer Cost!**  
E-DRIVE savings pays for entire trailer during battery warranty.  
*10-year savings vs. generator = \$56,000*  
*Rated battery life 6,000+ cycles (up to 24 years!)*

**SEE HOW MUCH YOU COULD SAVE...**  
Contact us, and we can create a personalized plan just for you!

**⚡ CONVENIENCE**  
E-DRIVE is extremely easy to use and maintain! No oil and filter changes, no regular maintenance required, and you **NEVER** have to stop and fill up with fuel. Depending on power needs, you will not even have to plug the trailer in for charging. Let solar do the work!

**⚡ MONEY**  
**SAVE LOTS of it!** Less operating cost = increased profit margins. Your E-DRIVE system will pay for itself in under a year and your savings will pay for the whole trailer over a 10 year period.
